3 PATTERN

APPLY TO SPACE

The background image shows a grand, ornate interior space, likely a palace or museum. A large, multi-tiered crystal chandelier hangs from the ceiling, casting a warm glow. The walls are covered in intricate gold leaf decorations, including large oval medallions with floral or landscape paintings. The floor is made of polished wood. The overall atmosphere is one of luxury and historical grandeur.

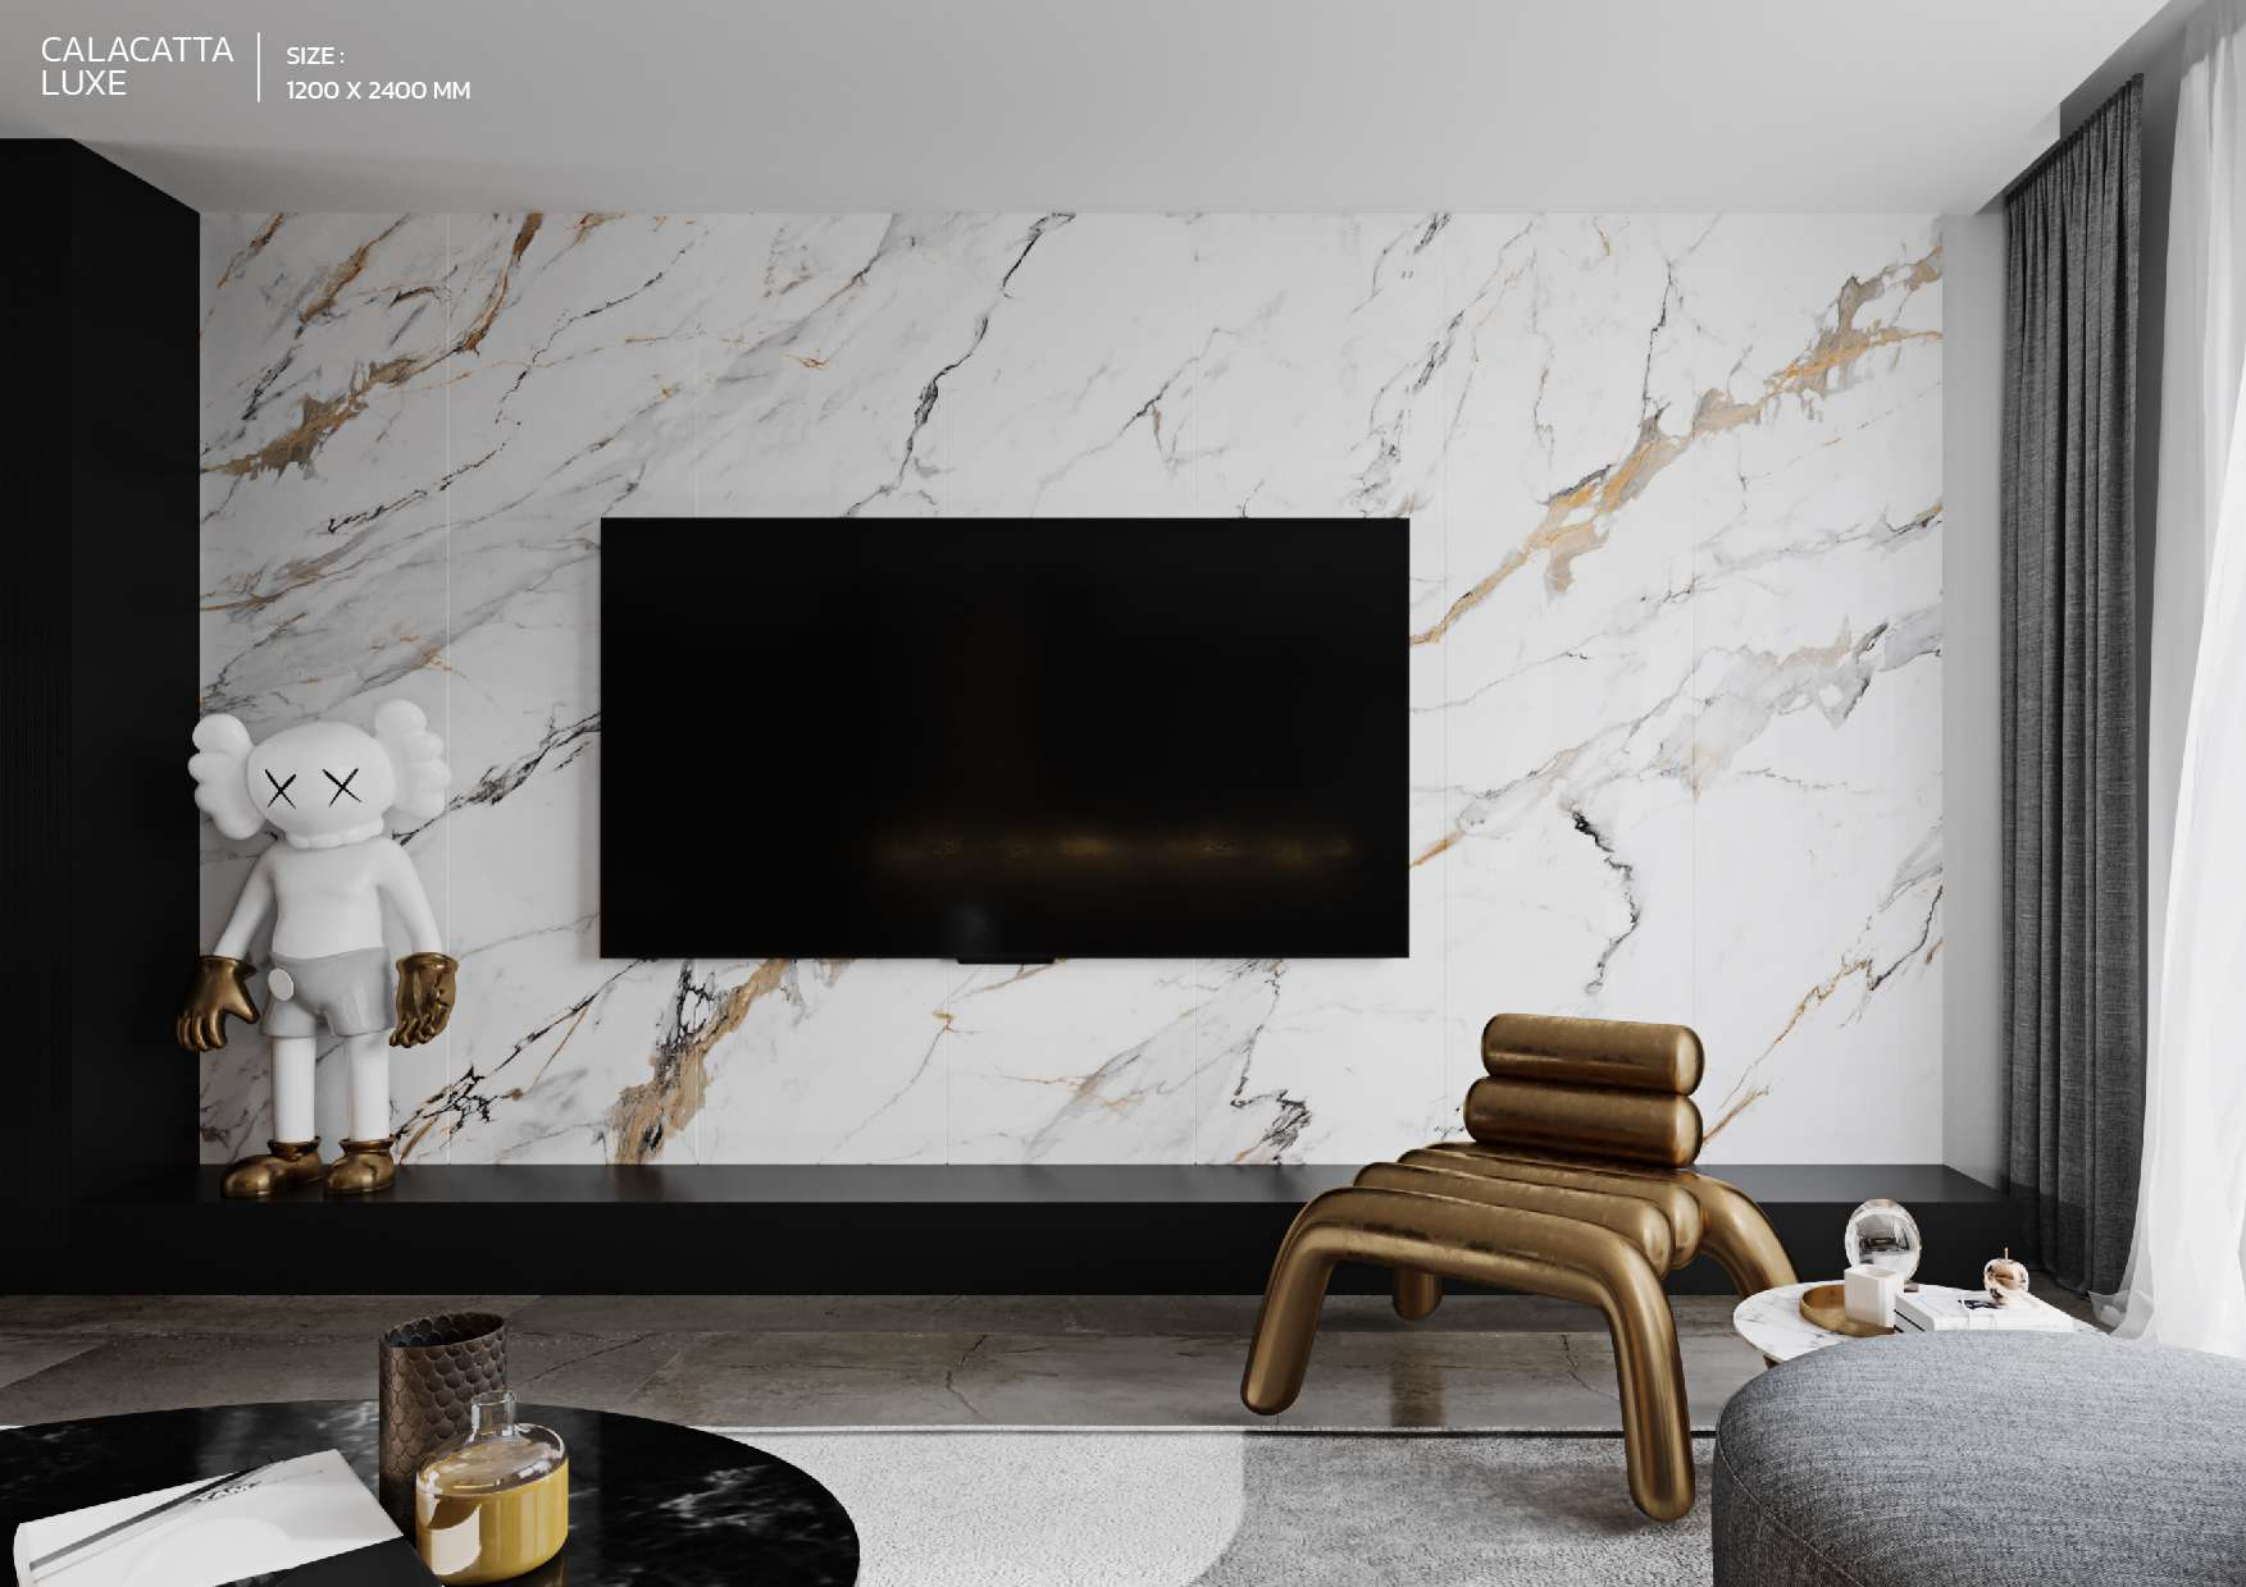

Luxury Series

Its natural texture is faded away from a variety of colors and complex materials. Its white texture surface is magnificent, and the natural stone texture is amazing. Because of the catalysis of light, its unique texture is perfectly carved.

DIAMOND SERIES

The 20MM Diamond Series is super thick, just like the body of KING KONG. Its ultra-high hardness without fear of impact, it is especially suitable for application in the cabinet countertop, table, wash basin surface and other places that need impact resistance. Some of the textures are also suitable for outdoor floors, which are not afraid of the wind, sun and graining.
